

Public Access Bleeding Control 8-Pack - Nylon

SAVE LIVES! STOP LIFE-THREATENING BLEEDING IN THE FIRST CRITICAL MINUTES.

The first minutes following a traumatic injury are crucial in saving a life. Uncontrolled bleeding can result in death within minutes—even before emergency medical services or other emergency responders can arrive. The North American Rescue® (NAR) Public Access Bleeding Control (PABC) 8-Pack is designed to provide bystanders and initial first responders with quick and easy access to essential medical equipment for stopping life-threatening bleeding. This PABC 8-Pack includes eight (8) Nylon Individual Bleeding Control Kits that are contained inside of an easy-to-open nylon carrying case. Also included is one (1) NAR QuikLitter™ used for moving injured casualties.

Each of the eight Individual Bleeding Control Kits are packaged in a compact, red nylon bag and contain intuitive and easy-to-use tools that are proven to help to save lives such as the fastest, safest and most effective prehospital tourniquet in the world, the C-A-T®, quality gauze, shears, pressure dressings/bandages and step-by-step illustrated “just in time” pictorial instructions, so that even untrained providers can help save a life.

NAR Public Access Bleeding Control (PABC) 8-Packs are available in Basic, Intermediate, Advanced and Advanced BCD configurations.
